

# VIBRAM MEGAGRIP ELITE

High level trailrunning

**MATERIAL TYPE:**

Solid rubber

**PRODUCTION POINT:**

China

**BEST FOR:**

- Top level of trailrunning

**MOLDS/MOLDING:**

Standard compression

**COLORS:**

Any solid color

**DESIGN GUIDELINES:**

“Rigorous – consult Vibram Design Team

**LAMINATION/BOTTOMING PROCESS:**

Standard for Megagrip compounds

**FEATURES & BENEFITS:**

- Improved grip on wet surfaces
- Maintains performances at low temperature

**PERFORMANCE:** Grip

**TEST RESULTS (LAB AND FIELD:)**

- |                    |           |
|--------------------|-----------|
| • Asker Shore A    | 66-72     |
| • Specific Gravity | 1.20+/- 5 |
| • DIN Abrasion 5N  | max 250   |
| • Tensile          | > 12      |
| • Elongation %     | > 450%    |
